VIII	Certificate of Lease	23
IX	Bazadais Breed Standard	24
X	Standard Breed Codes	25
XI	Vision and Mission	26

PLEASE NOTE: The current changes to these Regulations are marked in *italic* print.

1. DEFINITIONS

The Society	means The Australian Bazadais Cattle Society Inc.
Breed	means the Bazadais breed of cattle
The Regulations	means the regulations of The Australian Bazadais Cattle Society Inc.
The Bazadais Herd Book Register	means the book of the Society in which records of individual animals are kept, whether published or not, contained in computer tapes, discs or other such information storage system. It is abbreviated to "Register" throughout the regulations.
Full Blood	It is recognised that Full-Blood for Bazadais is an international term used overseas to denote Bazadais whose pedigree consists solely of animals of pure French Bazadais origin. To enable the Society and its members to respond to pedigree enquiries, particularly in respect of the potential to export, the Bazadais Herd Book will keep a record of which Bazadais being used in Australia meet the international definition of "Full-Blood."
Pure Bred	Means the animal is registered by the Society as a pure bred. It denotes that a particular animal is 100% Bazadais as far as the Society is concerned. (15/16 is recognised as Pure bred in females and male cattle).
Australian Bred Bazadais	Means Bazadais fullblood, graded and purebred cattle with no DNA and Parent Verification being not eligible for registration in the Fullblood and Purebred Herdbook.
AI Sire	AI Sire is a registered male Bazadais animal, may also be registered in a Bazadais/e Herd Book inside or outside of Australia and considered by the Society as suitable for registration of progeny born into herds of non - owner of the bull.
Donor Dam	Donor Dam is a registered female Bazadais animal, registered in a Herd Book outside of Australia and considered by the Society as suitable for registration of progeny born into herds of non - owner of the dam. Particularly for imported embryo use.
Herd Designation	is a unique identification for each herd. It comprises of three letters, allotted by the Society to each herd accepted for registration. The herd Designation is part of the tattoo identification with which each Bazadais or Bazadais infused animal must be identified within the off ear or off and near ear prior to registration.
Grade	Denotes the proportion of the Bazadais blood in an animal.
Grade Code	means the number or letter denoting the grade of an animal or the section of the register in which the animal is registered.
<i>Deemed Recorded</i>	<i>means to bring an unregistered animal into the herd book through DNA and PV tracing back to the Herdbook "Recorded for pedigree purposed only" and have a name suffix (DR)</i>
Year letter	means the letter denoting the year of birth of a registered animal.
Calf drop Number	Means the consecutive number allotted by the herd owner to each calf born in their herd.
Interim or Calf Recorded	Means calf recording of full blood or graded cattle to purebred animals up to 12 months of age with no DNA or parent verification. Interim cattle are required to be registered by 24 months with DNA and parent verification or late fees will apply.
Registered Owner	is the owner as recorded in the Herd Book.
Breeder	is the registered owner (or nominee owner) of the dam at the time of conception of her calf /calves.
Breeding Year	means the calendar year from January 1 to December 31.

Member	may be an individual, partnership or a company.
Nominee	a member other than an individual must advise the Society of a nominee who is then recognised as the representative for the member.
Service, Served Mated by	includes insemination by Artificial Insemination.
Stud Prefix	means a word or words recorded by the Society to identify any herd. Up to 16 characters including spaces may be used (minimum 2).
Name	means a word or words recorded in the register to identify an animal that is in addition to the Stud Prefix. Up to 16 characters including spaces may be used.
Identification	in relation to an animal means the unique series of numbers and letters on the animal either as a tattoo Identification is composed of Herd Designation, Grade Code, Year Letter and Calf drop number.
Performance Recording	The measuring of various items of performance of animals during growth particularly weight at 200 days, 400 days and 600 days; grade and conformation; milking ability (dams); scrotal circumference and serving capacity (bulls).

2. MEMBERSHIP AND HERD ENROLMENT

(a) Membership

- (1) Every member shall within 3 months of his admission, apply for enrolment of his herd and shall with his application provide the information required in relation to his herd and tender the fees which would be payable upon enrolment of his herd.
- (2) Council shall allot to each herd on registration a **herd designation** for the exclusive use of the registered owner of the herd. Each registered Herd Owner shall also apply to the council for approval of a **herd prefix** which consists of not more than 16 characters including spaces and which shall remain the exclusive property of the Herd Owner.
- (3) A member of The Australian Bazadais Cattle Society can only be a member in any other Australian Bazadais/e Breed Society, for a period of 6 months while transferring cattle across from another society to ABCS.
- (4) A Membership is entitled to a single vote. Any person who is part of at membership can vote on behalf of the membership. A member must register their intention to vote on behalf of that membership when registering their attendance at a meeting. If the person voting has been elected as a member of the committee no other person can vote on behalf of that membership while that person holds a position on the committee unless by proxy

(b) Associate and Commercial

Membership

Any person, partnership or company may apply to the Society for Commercial or Associate Membership. This encourages breeders of cattle other than registered Bazadais and people, companies or organisations who are not breeders of cattle but who wish to be members of the Society. Herd Prefixes are not registered for Associate or Commercial Members.

This entitles the member to be on the mailing list for all newsletters and promotional material, on a trial basis for the first two years.

(c) Junior Membership

Any person under 18 years of age may apply to the Society for Junior membership. Junior members, or junior partnerships, may apply to register animals if they are 16 years or above and have current (junior) membership of The Australian Bazadais Cattle Society Inc. In order to register animals these junior members must also apply for herd designation and stud prefix (and pay the appropriate fees). In a junior membership, all partners must individually qualify for junior membership. The name and address and signature of a legal guarantor must be submitted with the application. All applications, transfers and transactions must be countersigned by the approved guarantor.

Note: Junior membership is required to be upgraded to full membership status when the junior member turns 18 years of age. Such upgraded full members shall retain their herd designation and stud prefix.

- (d) Honorary Life Membership The council may elect as an honorary life member of the society any person who in the opinion of the Council is considered to have advanced the interests of Bazadais cattle. An honorary life member shall have all the rights and privileges of a member.
- (e) Joining Fee Applies to Full stud membership, Commercial and Associate membership at a fee that shall from time to time be determined by the council.
No joining fee applies to Junior membership.
Members rejoining the Society or members transferring from another Bazadais breed Society are exempt from paying the joining fee.

3. ELIGIBILITY FOR REGISTRATION

ONLY DNA PROFILE IDENTIFICATION IS REQUIRED FROM ANIMALS REGISTERED PRIOR TO 26.11. 2005

The Bazadais Recording Register shall contain the following sections:

- (a) Grading up Section Males and Females may be admitted to the Grading-up section. Animals eligible for registration will be subject to DNA recording and may be subject to inspection. All animals being graded up are subject to DNA Parent Verification except for First Cross which is subject to a Sire or Dam Trace and DNA against the Full or Purebred Herdbook. Not required for Australian Bred Bazadais Registration
- Animals registered in this section shall be given a Grade Code.
- Application for registration of an animal in the Grading up Section shall be made on a form approved by the council (see Appendix II) before the animal is 365 days old (12 months).
- Application for registration made after 365 days (12 months) from the date of birth of the animal shall be charged at the prescribed late fees.
Application for registration of an animal when it is older than 15 months of age shall be subject to council approval.
- Females Females by a registered Full blood Bazadais sire out of a base female of any breed or cross of any breed or out of a registered Full Blood Bazadais cow by any other breed or cross of any breed sire may be admitted to the Grading-up section.
- Females shall be entered according to the following grades:
0 = Base Dam
1 = Half bred
2 = Three-quarter bred
3 = Seven-eighths
P = Pure bred Bazadais in the Australian Herd Book
- Males Males by a registered Full blood Bazadais sire out of a base female of any breed or cross of any breed or out of a registered Full Blood Bazadais cow by any other breed or cross of any breeds sire may be admitted to the Grading-up section.
- (b) Pure Bred Section Animals in the following Categories may be admitted to the Pure Bred Section:
- (1) Animals registered as full-blood or pure breeds in other recognised Bazadais breed organisations must be presented to the Australian Registrar for verification.
 - (2) Animals bred in Australia whose Sire and Dam are registered in the Pure Bred section.

- (3) Animals whose parents are a registered Bazadais Full Blood Bull and a registered 7/8th female. Should such animals be born outside Australia and be intended for import into Australia they shall comply with Clause (1) of this section before Australian registration as Pure bred's may be bestowed upon them.
- (5) Animals in this section will be subject to DNA Parent Verification and may be subject to inspection. Animals in this section will be given a grade code "P". Application for registration shall be made on a form approved by the council before the animal is 365 days old. A late fee will be charged for registration if the animal is over 365 days old (12 months). Application for registration made after the animal is 15 months old will be subject to council approval.
- (6) A Purebred Bazadais Bull or Female is not eligible to compete in any breed led classes at any Royal Agricultural Show if any other colour than Bazadais Breed Standard.
- (7) A Purebred Bazadais can be of any colour
- (8) A Purebred Bazadais may be horned, scurred or polled.
- (9) *A Purebred Bazadais may be by a registered or deemed recorded (DR) sire and or out of a registered or deemed recorded (DR) dam.*

(c) Full blood A Full blood is defined as an animal of Full French Bazadais origin as determined by DNA, and parent verification.
A Fullblood Bazadais may be by a registered or deemed recorded (DR) sire and out of a registered or deemed recorded (DR) dam.

(d) Calf Recording

- (1) No animal shall be Calf Recorded other than by a member of the Society.
- (2) All animals submitted for Calf Recording shall be on the prescribed B1 registration form.
- (3) All applications for Calf Recording shall be submitted within 12 months of birth. No DNA and Parent Verification is required at this time.
- (4) All calves submitted for Calf Recording must be tattooed in accordance with ABCS Herd Book Identification rules.
- (5) Calves must have a full registration certificate to be eligible for transfer.
- (6) To be eligible for Interim Calf Recording an animal shall be the progeny of a sire and dam both with full registration in the ABCS Herd Book.
- (7) Interim Calf Recorded cattle can be upgraded to full registration before 24 months of age upon submission of their Interim Calf Registration certificate together with DNA and Parent Verification certificate, and payment of the prescribed registration fee.
- (8) Upgrading to full registration after 24 months of age will be subject to Council approval and incur a late fee as shown the in fee schedule. Appendix 1.
- (9) Weaned calves must have a full registration certificate to be eligible for showing.
- (10) Alternatively calves can be fully registered, with DNA and Parent Verification before the age of 12 months without Interim Calf Recording for the fee as shown in the fee schedule. Appendix 1.

(e) Australian Bred Bazadais Herd Book

- (1) An Australian Bred Bazadais can be a Fullblood, Purebred or graded male or female animal.
- (2) DNA and Parent Verification is not required (but may be provided).
- (3) *An Australian Bred Bazadais may be by a registered or deemed recorded (DR) sire and out of a registered or deemed recorded (DR) dam.*
- (4) An Australian Bred Bazadais cannot be upgraded to the full blood or Purebred herdbook unless all full French heritage can be proven by DNA and PV
- (5) An Australian Bred Bazadais male or female cannot have offspring registered in the Fullblood or Purebred Herd Books unless a full French heritage can be proven by DNA and PV.
- (6) An Australian Bred Bazadais is eligible to compete in any breed classes at any Royal or Regional Agricultural Show.
- (7) An Australian Bred Bazadais can be of any colour.
- (8) An Australian Bred Bazadais may be horned, scurred or polled.
- (9) An Australian Bred Bazadais bull to be eligible for registration as an AI sire must meet the rules as per the AI Sire Rules under section 8(b).
- (10) The Society will (*may*) select a number (whatever number is decided) of animals per year in this herdbook without DNA and PV to be parent verified at the Society's cost.

- (f) Identification Every animal born and eligible for registration shall before it is 90 days be permanently marked by tattoo in the ear with its identification according to the following system: **Herd Designation, Grade Code, Year Code** followed by the **Calf Drop Number** in the off ear or: **Herd Designation** and the **Grade Code** as tattoo in the off ear, with the **Year Code** followed by the **Calf Drop Number** as a tattoo in the near ear. The calf drop number must consist of at least 3 (if not 4) numerals, with leading zeros included where appropriate, and the year code letter may be inserted above the numerals or precede the numerals.

If you opt for the tattoo in one ear you must also brand.

In the event of a mistake being made, an X should be placed alongside the wrong number and the correct number be tattooed and the Society notified of the correction.

- (g) Dehorning Dehorning of cattle will be the decision of the breeder or owner of the beast. If an animal develops scurs of any length after it has been registered as a Poll the owner must notify the Society which will bear the cost of re-issuing the Certificate of Registration after amendment to the animal's "poll" record. All Full Blood Bazadais are classed as horned, any Bazadais registered as poll are to be born poll.

4. DE-REGISTRATION

- (a) Any animal may upon the written application of its registered owner be de-registered as at a specific date and shall be recorded.
- (b) The Council may -
- (1) Decline to enter any animal on the Register or to record the transfer of any animal if the appropriate fees are not paid.
 - (2) Cancel or defer any registration of an animal if the person recorded as the owner of such animal shall fail to pay to the Society within 60 days after demand, the monies

certified by the Society's Auditor to be payable whether such monies payable in respect of Annual Subscription or other fees.

- (3) Defer the entry in the register of any animal sold, exchanged, leased or otherwise disposed of if no application for transfer for such animal be lodged with the Society pursuant to these regulations or in any particular case if the prescribed fee be not paid within 90 days of transaction.
- (c) Subject to the proviso to regulation (3) hereof, de-registration of any animal shall not affect the registration of any calf of which such an animal is the sire or dam if the registration of such calf was recorded during the period of registration of such animal. De-registration alone shall not constitute a disqualification from re-registration.

5. MULTIPLE OWNERSHIP

- (a) There will not be more than 4 owners who are members of ABCS of any sire or dam, one of whom for recording purposes shall be designated to be the Nominee Owner. Such multi-ownership will only be recognised in terms of quarter-share (25%) units.
- (b) When a sire or dam has multiple owners, a copy of the agreement of entitlement and a copy of the names of the representatives and the partner deemed to have possession must be recorded with the Society which shall record a nominee owner on its computer files.
- (c) The registered owner (or nominee owner) of the donor dam at the time of conception shall be known as the breeder of the resultant progeny.

6. TRANSFER OF ANIMALS AND EMBRYOS

- (a) Application for transfer of any animal registered with The Australian Bazadais Cattle Society shall be forwarded to the Society by the animal's registered owner on the forms approved by the Council.
The owner shall complete the transfer certificate set out on the Registration Certificate, and forward it to the Society together with the transfer fee and levy as prescribed, within 90 days or accompanied by a "late fee" to be accepted. The prescribed fee applies to all registered animals. Every animal shall be registered, and the registration fees paid by its owner before it can be transferred. Transfer fees shall be paid to the Society by the Vendor.
1. *When the purchaser is not a member of the Society, the vendor must explain the benefits of becoming a member, complete and sign in the transfer space provided on the reverse side or bottom of the Certificate of Registration and send it to the Registrar. The Registrar or Secretary is to send the purchaser a letter inviting them to join the Society. The Registrar is to hold the Certificate of Registration and may reissue it subject to 6 (a) 2 below.*
 2. *Where a registered Bazadais animal has been sold as unregistered, or its past owner is not a current member of the society its Registration Status becomes "Inactive." Its Registration Status may be reinstated to "Active" at the discretion of the Council or Registrar if:*
 3. *A subsequent owner is a Full Financial, Life or Junior, Member of the Society; and*
 4. *Documentary proof of the legitimacy of transactions is provided; and*
 5. *If still a member of the Association, the last Registered Owner recorded on the Association Herd Book agrees, or upon application is approved by the council; and*
 6. *the transfer fees are paid.*
- (b) Transfer of a registered female with a calf at foot: - The breeding date of the cow must be substantiated and the calf at foot registered by the vendor, and transferred to the new owner, as a separate transfer application.

- (c) Transfer of registered animals from overseas: - Applications for registration of animals transferred from other countries must be signed by the importer showing the date of importation and include certificates verifying that they were registered in the country from which they came. If an animal is in calf, in order to register progeny, in Australia, the service information must be verified by the recording Society in which the service sire is registered.
- (d) Section 11 of the Regulations describes Embryo Transfer and Frozen Embryos.
- (e) *Leasing* If a bull or female registered with the Society is leased for breeding purposes a copy of the agreement signed by the Lessor and the Lessee shall be forwarded to the Society together with the appropriate fee within 90 days of commencement of the lease agreement. The commencement date and intended completion date shall be fully disclosed on the copy of the agreement forwarded to the Society. If the leased animal is a female then the lessee will in all cases be considered the owner of the dam at the time of conception, and any embryo and /or calf if such conception occurs during the period of the lease.
- (f) The leasing of registered females / bulls shall include the provision for leasing of multi owned registered animals. If such lease is required by another member of the Society, then written endorsement is required from all part owners before being approved by the society.
- (g) The lessee of a female shall be the designated breeder and first owner of all embryos resulting from any flush which occurs during the period of the lease
- (h) Where an animal is the subject of a lease agreement a transfer application and prescribed fee must be submitted by the lessor in favour of the lessee. At the expiration of the lease the animal shall be transferred back to the lessor's membership without fee.
Refer Lease Agreement Appendix VIII
- (i) *Deemed Recorded* Council may approve an animal to be Deemed Recorded in the Herd Book provided the animal's parentage is proven through DNA and Parent Verification and traced back to the Fullblood, Purebred or Australian Bred Bazadais Herd Book.
- A Deemed Recorded animal would be given the last registered owner's prefix. Recorded as "Recorded for pedigree purposes only" and with a name suffix (DR).*
- Progeny of Deemed Recorded animals will be eligible for full registration subject to the conditions of Clause 3*

7. DISPERSAL SALES

- This regulation shall apply in all cases in relation to the promotion of any offerings under the heading "Dispersal Sale" -
- (a) A Vendor may dispose of interests in a section of his animals, embryo stock, semen or breeding service contracts by advertising the details of such offering in a manner which is unambiguous and which does not imply a complete or total dispersal of his herd, embryos, semen stock or breeding service contracts.
- (b) Any Vendor may offer to dispose of his entire herd, embryo stock, semen stock of breeding services agreements by advertising and conducting a phased dispersal sale provided that all such dispersals shall be in accordance with these regulations.
- (c) A Vendor who offers a complete or total dispersal of his herd, embryo stock, semen stock or breeding contracts shall catalogue and present for sale all registered animals, semen, embryos and breeding contracts in which he had any interests (health status and viability permitting) and all such animals, semen, embryos and breeding contracts and all rights therein shall be offered in accordance with these Regulations, provided that the member shall have the right to cancel the dispersal sale before its commencement.

- (d) On completion of a dispersal sale, the vendor of the above mentioned interests will surrender the right to use the herd prefix of the dispersed herd in the registration of any future calves of that breed.

8. MATINGS

- (a) A member may use artificial insemination (A.I.) or Natural Service in a registered herd provided he/she completes all information required on the Society's Mating Calving and Registration Data form (Form B1 - refer Appendix II). Only registered sires may be used.
- (b) Owners of registered Bazadais bulls desiring to market semen that is intended for the production of registered calves are required to :
- (1) Notify the Society in writing of the intention to use a bull as an A.I Sire and complete application for AI Sire Registration – See appendix VI
 - (2) provide a three-generation pedigree.
 - (3) provide a DNA certificate of the bull. Refer section 10.
 - (4) pay to the Society any registration fee in force from time to time.
 - (5) receive Society approval following inspection as required
- (c) A current list of all registered AI Sires is available from the Society Secretary upon request or Society Website.
- (d) Registration of calf by non owned sire (other than by a registered A.I.Sire) requires completion of Certificate of Service Form. See Appendix V.

9. ARTIFICIAL INSEMINATION

- (1) The sires are to qualify under section 8.(b)
- (2) Registered bulls having semen collected solely for owners use or gift are not required to qualify as an A.I. Sire under section 8 (b)

10. DNA RECORDING

- (1) DNA Recording of all breeding stock is required to verify parentage. DNA Applications are available from the DNA service provider.
- (2) Australian Bred Bazadais registration does not require DNA or PV.

11. EMBRYO TRANSFER AND FROZEN EMBRYOS

- (a) A copy of the Certificate of Embryo Recovery, Transfer and Freezing Sheet, dated and signed by the veterinary technician and the DNA and Parent Verification to the donor sire and the donor dam used in embryo transfer programmes must be supplied by the owners of the animals to the Society with the Form B1 on application for registration.
- (1) The DNA of the donor Sire and the donor Dam must be listed in the Australian Bazadais Herd Book.

- (2) It is the responsibility of the importer of embryos from overseas to submit a copy of the DNA of the Sire and Dam to the Society for registration.
- (3) A Certificate of Service for Calf Resulting from Embryo Transfer Sale (see Appendix VII) is supplied by the breeder to the purchaser for each embryo to be registered and is to be included with a copy of the Embryo Collection Flush Sheet.
Progeny born from embryo transfer in Australia will only be registered provided the member submits the relevant details of calving on the Form B1

12. PROCEDURES TO IMPORT SIRES, DAMS, SEMEN AND EMBRYOS AND REQUIREMENTS TO REGISTER PROGENY

Before the Society can accept into its Herd Book any imported sire, dam, semen or embryos, it must receive:

- (a) An export certificate from the recognised Breed Society of the exporting country verifying the transfer of ownership.
- (b) An extended pedigree to three (3) generations (in cases of embryos, for both parents).
- (c)
 1. For live animals and Semen:- DNA of the animal, or sire.
 2. Embryos:- A separate DNA for each of the sire and dam.
- (d) Payment of the prescribed fees as set out from time to time.
- (e) Registration of calves resulting from Embryo Transfer are to be registered on the Form B1
- (f) A Certificate of Service for Calf Resulting from Embryo Transfer Sale is to be completed by the breeder for embryos produced in Australia and sold prior to registration of live calf.
- (g) Recipient females must be ear-tattooed or ear-tagged.
- (h) Live animals will be subject to an inspection by an inspector appointed by the Society at the expense of the importer.
- (i) All sires used for mating to prospective donor dams (with the expectations of Australian registration for resultant progeny) must be either owned in the other country by the applicant or be approved by the Society as an A.I. sire.

13. SOCIETY - SPONSORED SHOWS AND SALES

A clause must be inserted in all entry forms stating that the vendor agrees to abide by the rules and regulations of the Society show and sale committee. Animals are subject to inspection and those not meeting the inspection criteria are to be offered at the end of the sale. Animals with physical defects will be withdrawn from sale. Inspectors will be appointed by the Society Council but not be named. The inspection panel must include a representative of the selling agent(s). Prior to the commencement of a Society - sponsored sale the recommended upset price must be set by the Society.

14. BAZADAIS BREEDPLAN - PERFORMANCE RECORDING

The Society approves and encourages members to record the performance of Bazadais, Bazadais-cross animals. These records can be submitted to the Society for the processing of individual reports and the building of a suitable data bank for analysis of breed performance at a suitable future date, when there are sufficient records. The Society endorses the use of BAZADAIS BREEDPLAN, a system operated by the Agricultural Business Research Institute (ABRI) for performance recording, which has been integrated with the Bazadais Recording Register. Further information about BAZADAIS BREEDPLAN is available on request from the Society.

Members who utilise this service are requested to pay the prescribed fees for performance recording direct to BREEDPLAN.

15. ERRONEOUS ENTRY

- (a) Should any animal be admitted to entry or transferred through misrepresentation or fraud, the Council on discovery of same shall declare the entry or transfer void; together with any entries that have been made of descendants of that animal. The Council may direct the Registrar to refuse any subsequent application for registration or transfer dependant on the signature of any person implicated in such fraudulent entry of transfer. Errors will be resolved as to parentage by DNA testing.
- (b) Notwithstanding anything herein contained, the Society assumes no responsibility, financial or otherwise, for any loss or damage that may be sustained by any individual, partnership or company by reason of the suspension, cancellation, or correction of any registration, transfer or other document or by reason of the rejection of any application for membership in The Australian Bazadais Cattle Society.

16. FEES

The Council shall from time to time prescribe a schedule of fees levies and other charges including penalties payable under these regulations and the times for payment thereof which shall be appended to and form part of these Regulations (refer Appendix I).

APPENDIX 1.**FEES***Applicable from 20th September 2015*

The Society operates on a cash basis.

Registration fees are based on the date of the postmark, indicating the date mailed to the applicant.

1. Membership:(This is on a calendar year basis *January - December*)

Annual Membership	\$200.00
Annual Associate Membership	\$ 50.00
Annual Commercial Membership	\$ 50.00
Annual Junior Membership	\$ 25.00

2. Joining Fee

Once only fee Full Membership	\$25.00
Once only fee Commercial Membership	\$ nil
Once only fee Associate Membership	\$ nil
No fee for Junior Membership	

3. Registration & Recording of Calves**A: Interim Calf Recording under 365 days (12 months) of age**

No DNA and Parent Verification certificate required at this time

Full blood & Pure bred Bazadais females	\$ 15.00
7/8 Bazadais females	\$ 6.00
3/4 Bazadais females	\$ 4.00
1/2 Bazadais females	\$ 3.00
Full blood , Pure bred	\$ 15.00
3/4 & 7/8 Bazadais bulls	\$ 6.00

B: Up grading to full registration under 720 days (24months) of age

Must include DNA and Parent Verification certificate

Full blood & Pure bred Bazadais females	\$ 15.00
7/8 Bazadais females	\$ 6.00
3/4 Bazadais females	\$ 4.00
1/2 Bazadais females	\$ 3.00
Full blood , Pure bred	\$ 15.00
3/4 & 7/8 Bazadais bulls	\$ 6.00

Up grading to full registration after 24months will be a cost of \$60.00 per animal**C: for Animals under 365 days (12months) of age**

Must include DNA and Parent Verification certificate

Full blood & Pure bred Bazadais females	\$ 25.00
7/8 Bazadais females	\$ 10.00
3/4 Bazadais females	\$ 7.00
1/2 Bazadais females	\$ 5.00
Full blood , Pure bred	\$ 25.00
3/4 & 7/8 Bazadais bulls	\$ 10.00

D: for Animals over 365 days (12 months) of age

Must include DNA and Parent Verification certificate

Full blood & Pure bred	\$ 50.00
7/8 Bazadais females	\$ 20.00
3/4 Bazadais females	\$ 14.00
1/2 Bazadais females	\$ 10.00
Full blood , Pure bred	\$ 50.00
3/4 & 7/8 Bazadais bulls	\$ 20.00

4. Registration & Recording of Australian Bred Bazadais calves

A:, B:, C: and D: All fees as above apply

DNA & Parent Verification is not required but can be supplied.

Note that animals over 24 months old shall be registered only at the discretion of the Council.

5. Existing Registration –

Only for Members of another Bazadais cattle Association and joining for ABCS registration of cattle with existing registration (Copy of existing registration papers to be forwarded)

Fee current as of 16.2.2013 \$ 7.50

6. Transfer or Lease Fees

A: Within 90 days of Sale

All recorded live cattle \$ 15.00

B: After 90 days of Sale

All recorded live cattle \$ 30.00

C: Lease Agreement

All animals (includes return transfer fee) \$ 30.00

7. Other Items

Duplicate Certificate \$ 3.00

Extended Pedigree \$ 10.00

Additional copies of Pedigree \$ 3.00

Change of Animal's name at owner's request \$ 25.00

A.I. Sire Fee \$ 25.00

Donor Dam Fee \$ 50.00

8. Deemed Recorded Fees

Deem Record a Female \$ 20.00

Deem Record a Male \$ 20.00

REGISTER: 1 - Registered, 2 - Not Registered

Appendix III

Recording Instructions B1 Form current as at 30.11.2019

Interim calf Registration

General Instructions:

Allows members to interim record the birth of calves without the DNA and Parent Verification prior to 12 month of age.

1. No animal shall be Calf Recorded other than by a member of the Society.
2. All animals submitted for Calf Recording shall be on the prescribed B1 registration form.
3. Please mark your form YES for Interim calf recording as marked in top right hand corner of B1 form..
4. All applications for Calf Recording shall be submitted within 365 days of birth with the prescribed fee as shown in fee schedule Appendix 1.
5. To be eligible for Interim Calf Recording an animal shall be the progeny of a sire and dam both with full registration in the ABCS Herd Book. The exception is that of a first cross animal.
6. Interim Calf Recorded cattle can be upgraded to full registration before 24 months of age upon submission of their Interim Calf Registration certificate together with DNA and Parent Verification certificate, and payment of prescribed registration fee as per fee schedule Appendix 1.
7. Upgrading to full registration after 24 months of age will incur late fee as shown in fee schedule. Appendix 1.
8. The B1 recording forms can be obtained from the Secretary or downloaded from the website. Recording should be neat and made firmly so that your copy is also clear.
9. The shaded sections of the form B1 must be recorded, unshaded sections are optional. Line zero gives an example of the recording of a three quarter bred female calf in herd XYZ.
10. Dams of grades 1, 2, 3, P and Fullblood must be registered with the Society before their progeny will be accepted for registration. Sires must also be registered with the Society.
11. Mail the top copy of the B1 form together with registration fees as per fee schedule. See Appendix 1.
12. If you have used a bull that is not owned by you, you must submit a Certificate of Service for non owned sire - Regulation 8 (d)) for each animal requiring registration. See Appendix XI of Regulations
13. The service certificate is not required if the calf is from semen you have purchased from an AI registered sire.
14. Forward to Registrar at ABRI within 365 days of calf birth.
15. File the second copy and associated paperwork for future reference.
16. If you wish to performance record you need to first take out separate membership with "BREEDPLAN". Then mark Y =Yes in the appropriate space at the bottom left hand corner of the Form B1. Thereafter, you should record details of all calving, including still births. All live calves will be included on a computer printed list for recording weaning weights at about 200days.

Once only and Full Registration of a Calf

General Instructions:

1. DNA profile and parent verification is required for all cattle put forward for full registration. Excluding Australian Bred Bazadais registration
2. All animals submitted for registration shall be on the prescribed B1 registration form.
3. Please mark your form **NO (not interim calf recording)** as marked in top right hand corner of B1 form.
4. All applications for full Calf Registration shall be submitted within 365 days of birth with the prescribed fee as shown in fee schedule Appendix 1.
5. The hard copy recording forms are self carboning. Or can be downloaded from the website. Recording should be neat and made firmly so that your second copy is also clear.
6. The shaded sections of the form B1 must be recorded, unshaded sections are optional. Line zero gives an example of the recording of a three quarter bred female calf in herd XYZ.
7. Form B1 is to be used only for natural born *and embryo* calves, Dams of grades 1, 2, 3, P and Fullblood must be registered with the Society before their progeny will be accepted for registration. Sires must also be registered with the Society.
8. Mail the top copy of the B1 form together with registration fees, if interim calf recording.
9. If you have used a bull that is not owned by you, you must submit a Certificate of Service for non owned sire - Regulation 8 (d)) for each animal requiring registration. See Appendix VI of Regulations.
10. If you are registering a calf from an embryo transfer you must include a copy of the flush sheet and if you have purchased embryos you must also submit a Certificate of Service for Calf Resulting from Embryo Transfer Sale.
See Appendix VII

11. The service certificate is not required if the calf is from semen you have purchased from an AI registered sire.
12. Forward to Registrar at ABRI within 365 days of calf birth.
13. Keep and file a second copy and associated paperwork for future reference.
14. If you wish to performance record you need to first take out separate membership with "BREEDPLAN". Then mark Y =Yes in the appropriate space at the bottom left hand corner of the Form B1. Thereafter, you should record details of all calving, including still births. All live calves will be included on a computer printed list for recording weaning weights at about 200days.

Herd Designation:

The 3 characters assigned to the member by the Society.

DAM

Ident No.	-	this must be recorded accurately and includes:
HERD	-	The 2 or 3 character herd designation of the breed of the dam
GDE	-	grade, based on the code. 0 = Base Dam 1 = ½ bred Bazadais 2 = ¾ bred Bazadais 3 = 7/8 bred Bazadais P = Purebred (15/16 or above) F = Full Blood Bazadais (Full French traceable parentage)

YR alphabetical year of birth code.

1995=Q 1996=R 1997=S 1998=T 1999=U 2000=V 2001=W 2002=X 2003=Y 2004=Z 2005=A 2006=B
2007=C 2008=D 2009=E 2010=F 2011=G 2012=H 2013=J 2014=K 2015=L 2016=M 2017=N 2018=P
2019=Q 2020=R 2021=S 2022=T 2023=U 2024=V 2025=W 2026=X 2027=Y 2028=Z

**** Please note that the letters "I" and "O" are not included in the above list because they are not included in the official list of letters adopted by BREEDPLAN.**

NUMB – animal number, up to 4 digits all numeric.

Hence XYZ1R035 is the ident number of a F1 animal (grade=1), in herd XYZ, born in 1996 (R) and with the tag number of 35. Take care that you do not use the same identification number for more than one animal.

Fate – see codes at bottom of the Form B1

Permit – Y=yes: Dam is leased or breeder has a permit for its use: blank if not leased.

Breed - Record a breed for the base dams the first time they are used only. Do not record a breed for registered, crossbred or purebred dams.

Examples of Breed Coding: Use 2 character codes See the attached sheet for the codes for the breeds.

- | | |
|--|-----------|
| 1. Hereford sire and dam | =HHHHHHHH |
| 2. Angus sire x Hereford dam | =AAAAHHHH |
| 3. (Angus x Hereford sire) X (Murray Grey x Shorthorn) dam | =AAHHMGSS |

SIRE

Ident No. – All registered donor sires are given unique code by the society and these should be used for identification. Other sires which have been bred in Australia will have an identification number in the Australian Herd Book and this will be printed on their Registration Certificates.

Name – it is desirable to record the name of the sire or an abbreviation of it to assist in checking that the correct sire ident has been used

Mating date – if the sire was joined by AI the mating date must be supplied. AI? Y=Yes: leave blank if paddock served.

CALF

Ident No. – used the same convention as for sire and dam ident. The NUMB part of the ident should correspond to the tattoo on the calf's ear e.g. 001. For the first calf dropped, 002 for the second and so on. The example on the line zero is for a three quarter bred female; the fifth calf in 1999 XYZ2U005
The grade of any calf is determined from the following table by the grade of its sire and dam.

DAM

	Base Dam 0	½ Bred 1	¾ Bred 2	7/8 Bred 3	P	15/16
DAM <i>Full Blood / Purebred only</i>	1	2	3	4/P	P	
SIRE <i>Full Blood / Purebred only</i>	1	2	3	4/P	P	

Name – a name up to 12 alphabetical and numerical characters may be recorded.

Birth Date – must be recorded accurately as day/month/year.

Birth weight (kg) – optional data, if recorded it must be in whole kilogram.

Calving Fate – optional data, all permissible codes recorded at the bottom of the form B1

Twin, Abnormal – Y= Yes, N=No

Colour – optional data, R=Red, BL=Black, BR=Brown, G=Grey.

Sex and Poll – See codes at the bottom of Form B1.

Register? – Y=Yes, mark this clearly and submit fees according to the number of calves so marked.
All animals must be registered prior to transfer.

Breeder (Nominated Member) should sign each form, attach fees and forward to the Society for processing within 365 days of birth of calf.

If you have any queries regarding completion of any forms please do not hesitate to contact the *Society Registrar* for assistance.

APPENDIX IX INFORMATION ON BAZADAIS BREED STANDARDS

For consideration by Bazadais enthusiasts in Australia

The following are a few characteristics to look for when considering Bazadais from the point of view of type and conformation.

Overall Appearance is one of Balance:

The Bazadais has a refined outline showing good conformation and thinness of bone. Characteristically revealing femininity, strength and vigour. An ease of movement enhances their athletic and mobile nature.

Coat & Colour:

Calves: - Born a beige to wheaten shade gradually becoming grey at about 3 months of age.

Cows - Coat is short the colour varying from light to dark grey

Bulls - Coat is short and smooth the colour varying from steel grey to lighter grey body and can have a dappled appearance, showing darker colour from the shoulder forward and from the pin to the hock. The bulls invariably have a white sword through the shoulders and withers to the middle of the back.

Height & Weight:

Cows - Average height 140 centimetres Average Weight 750kg

Bulls - Average height 145 centimetres Average Weight 1100kg

Head and Neck:

Head is triangular and of medium size, a good width of muzzle presenting an even bite (not over or under shot), and an open nostril. The eye is clear, soft, but alert. Well hooded surrounded by a dominant silver circle with clear mucous membranes.

The neck is neatly coupled to a sloping shoulder.

Shoulders and Chest:

A broad deep chest, a smooth brisket, carrying good meat coverage from the shoulder blade to the forearm with a wide square stance.

Body:

Extreme length, exceptional spring and depth of rib with a full top line. Showing excellent meat cover from behind the shoulder to the loin.

Hindquarter:

Showing straight top line with a well set tail. Good width of hip and excellent length from hip to pin, extending to a wide ham like rump with full depth to the hock allowing a broad stance behind giving good air circulation to the scrotum.

Legs and Feet:

Legs not showing excessive length are straight to a strong pastern, the hoof is hard, black with a good height of heel, being even and free of corns and irregular hoof growth, making the beast adaptable to all terrains.

Udder:

Even square bag with well set teats of ideal suckling size, showing good maternal ability.
